## Power Semiconductor Company Opens Manufacturing Center in North San Jose

### *International Rectifier brings 100 jobs to San Jose at its newly relocated state-of-the art facility*

**Event:** The San Jose Redevelopment Agency and the City of San Jose will celebrate the opening of International Rectifier's new facility.

**When:** Thursday, April 8, 2010  
2:30 p.m. – 3:30 p.m.

**Where:** 2520 Junction Avenue (at Trimble Road)

**Who:** Mayor Chuck Reed  
Harry S. Mavrogenes, Executive Director, San Jose Redevelopment Agency  
Oleg Khaykin, CEO, International Rectifier

**Background:** International Rectifier (IR), a world leader in power management technology, recently relocated its manufacturing facility to North San Jose from Santa Clara. The San Jose Redevelopment Agency assisted International Rectifier with finding the company's new 35,000-square-foot building. International Rectifier currently employs approximately 100 employees at the San Jose facility and 4,000 worldwide.

Headquartered in El Segundo, California, the 63-year-old company develops energy efficient power management solutions. Leading manufacturers of computers, energy efficient appliances, lighting, automobiles, and aircraft and defense systems rely on IR's power management benchmarks to power their next generation products. IR's San Jose facility designs and manufactures ruggedized hybrid DC-DC converters for high reliability applications.

Since 1977, the San Jose Redevelopment Agency has invested \$174 million in infrastructure improvements in the Innovation Triangle, also known as Rincon de los Esteros including Route 87 improvements; flood control; the Brokaw Road – U.S. 101 undercrossing, and Tasman Bridges. The Innovation Triangle consists of more than 4,600 acres and is home to 1,400 national and international

companies employing 60,000 people. [www.sjredevelopment.org](http://www.sjredevelopment.org)
